
Flywheel Showcase, Make Something Flywheel

Posted by camp26team - 2008/07/02 00:05

We are happy to announce the release of our brand new commercial module called Camp26 Flywheel Showcase.

As the name suggest, Camp26 Flywheel Showcase displays your image/product showcase in a nice sliding transition, automatically like carousel and always run like flywheel. You can choose and replace the images that you need. This module was designed to be extremely easy to use.

This module working properly with JQuery or Mootools, so you don't worry if your live site have used that.

Camp26 Flywheel Showcase able to work on Joomla 1.5 Native and Joomla 1.0.

You can see the module in action on J! 1.5 demo or J! 1.0.x demo and download this module at Member Area ([Join here](#)).
