
where is my administrator

Posted by Ronald - 2008/10/09 17:12

I just download a free template. But now can't I find my administrator. Who can help me ? I can't login with this template.

What kind of free template did you used? And where is your live site url? I think the administrator page and the template, they don't have relationship, I mean the template wouldn't make the administrator page gone/redirect, to make the administrator area to be unusual needs more tricks and the template changing is not one of them.

Regards,

Denny S.P.
